

Sun God Medicinals - the Brand

All Sun God Medicinals products are blended & extracted from bioregional herbs originating in Southern Oregon. First with herbal teas in 2012 sold under the family farm name, Sunna Ra Acres and then as a complete Sun God Medicinals Brand in the Summer of 2014 by husband and wife team Brie Malarkey & Jon Cunningham. With a mission to focus on regional herbs for sustainability and so consumers could know where their herbs come and to produce products formulated with the health of the end user in mind. From artisan herbal teas and tinctures to soothing topicals and more, the product line aims to demystify medicinal herbs and help people find the right herbs, for the right symptoms. In 2016 the herbal product line was certified organic by Oregon Tilth and in the Fall of 2018 the family opened Sun God Herbsals inc to manufacture and distribute the complete herbal and hemp product line.

Give Your Body What It Deserves: Organic, Sungrown Herbs

At Sun God Medicinals we strive to provide consumers with safe access to bioregional, medicinal herbs. We create products with the health of our customers in mind - blending, extracting, and producing effective, high quality products that really work for you, your family, and your friends. We source organic materials from ethical companies whenever possible and provide certificates of analysis performed by 3rd-party laboratories for hemp products to help bring our consumers peace of mind.

In The Beginning...

Sun God owner and CEO Brie Malarkey formulated our first herbal tea in 2012 with plants grown on the family farm, Sunna Ra Acres, in Shady Cove, Oregon. Originally blending for a family member suffering from loss of sleep, she then offered the teas to

others at regional farmers markets, and eventually through retail stores in 2014. The brand has continued to grow since and now includes 14 different herbal blends in the form of both tea and tinctures.

Mythology and Lore

We pay respect to the herbalists and medicine people before us by naming each product line after a god or goddess related to health and wellness from world mythologies. Let the Legends Guide You!

About the Founders

Brie Malarkey and Jon Cunningham are co-founders of Sun God Medicinals. Brie is an avid and experienced entrepreneur thanks to her education in public policy and passion for business. Jon's enthusiasm and eleven-year finance career has lent well to his entrepreneurial endeavors. In 2006, after many years of managerial and executive experience, Brie and Jon opened and ran a wine store in Eugene, Oregon. In the wake of the recession the family closed the wine store in 2010 and moved to Shady Cove, Oregon to start a farm and give homesteading a try. In March 2014, Sun God Medicinals was born. Brie brings a passion for sales, marketing, strategic planning and employee development to the Sun God team. Jon brings an in-depth knowledge of financial analysis and business operations to the executive team and oversees the financial health of the company. In addition to their business skills, Brie and Jon share a passion for plants and have been growing plants since 2007. They take pride in their organically grown, small-batch artisan medicine.
